

Physician Practices and Medical Clinics Deserve a Powerful Supply Chain Solution

Physician practices and medical clinics exist to serve patients, but as businesses, they also must maintain a positive profit margin to remain sustainable.

Saving money on supplies is a high-impact opportunity for practices to improve their financial performance. Many align with group purchasing organizations (GPOs) to access reduced prices, but some GPOs are not tailored to the unique needs of medical practices and clinics.

In collaboration with HealthTrust Performance Group, CHC Supply Trust offers comprehensive supply chain consulting and access to a GPO tailored specifically for physician offices and non-acute healthcare settings. Advantage Trust is the arm of HealthTrust that specializes in serving physician offices and non-acute healthcare facilities. Through this partnership, CHC Supply Trust serves your unique needs.

BENEFITS

Physician practices and medical clinics now have access to the same HealthTrust GPO pricing that many large health systems across the country enjoy. This is a risk-free, no-cost-to-join opportunity. Membership also includes support to ensure connections with vendors.

Cost Savings: Achieve cost savings on items you already purchase and use.

Enhanced Operational Efficiency: CHC Supply Trust assists in optimizing distribution channels and logistics, ensuring timely and efficient delivery of essential supplies to physician practices.

Support: The services are tailored to appeal to physicians and business office managers, offering flexibility and personalized solutions to meet your specific needs.

GETTING STARTED

Practices interested in CHC Supply Trust services can expect a straightforward onboarding process that begins by reaching out to CHC Supply Trust by email or phone to get started. The implementation process is typically completed within 30-60 days.

CHC Supply Trust has proven its ability to serve the unique needs of physician practices through an ongoing relationship with AdvantageTrust.
